Q.1 Which of the following is the largest cranial nerve?

- Ans
- 1. Cranial nerve VII
 - 2. Cranial nerve V (trigeminal)
 - 3. Cranial nerve X
 - 4. Cranial VI

Question Type : MCQ

Question ID : 810592213

Status : Answered

Chosen Option : 2

Q.2 Oxytocin is mainly involved in which of the following functions?

- Ans
- 1. Growth and mental ability
 - 2. Motor skills
 - 3. Regulation of blood pressure
 - 4. Childbirth and lactation

Question Type : MCQ

Question ID : 810592211

Status : Answered

Chosen Option : 4

Q.3 The posterior pituitary consists mainly of _____

- Ans
- 1. Beta cells
 - 2. Neuronal projections
 - 3. T cells
 - 4. C cells

Question Type: MCQ
Question ID: 810592210
Status: Answered
Chosen Option: 2

Q.4 Which of the following parts of the brain controls body temperature?

- Ans
- 1. Hippocampus
 - 2. Hypothalamus
 - 3. Amygdala
 - 4. Pons

Question Type: MCQ
Question ID: 810592202
Status: Answered
Chosen Option: 2

Q.5 Which of the following quadriceps femoris muscles help in flexion of the thigh?

- Ans
- 1. Vastus medialis
 - 2. Vastus intermedius
 - 3. Rectus femoris
 - 4. Vastus lateralis

Question Type: MCQ
Question ID: 810592220
Status: Answered
Chosen Option: 2

Q.6 Which of the following layers of the adrenal gland secretes glucocorticoids?

- Ans
- 1. Zona glomerulosa
 - 2. Zona reticularis
 - 3. Adrenal medulla
 - 4. Zona fasciculata

Question Type: MCQ
Question ID: 810592212
Status: Answered
Chosen Option: 4

Q.7 How many bones are there in the lower extremities in a normal adult?

- Ans
- 1. 60
 - 2. 64
 - 3. 62
 - 4. 58

Question Type: MCQ

Question ID: 810592219

Status: Answered

Chosen Option: 1

Q.8 A _____ is a cell that manufactures and stores the protein keratin.

- Ans
- 1. keracyte
 - 2. keratinocyte
 - 3. keratinolyte
 - 4. keraticellyte

Question Type: MCQ

Question ID: 810592218

Status: Not Answered

Chosen Option: --

Q.9 Tarsals of the ankles are examples of which type of bone?

- Ans
- 1. Long bones
 - 2. Short bones
 - 3. Pneumatic bones
 - 4. Sesamoid bones

Question Type: MCQ

Question ID: 810592203

Status: Answered

Chosen Option: 2

Q.10 Which of the following hormones inhibits release of growth hormone?

- Ans
- 1. Somatotropin
 - 2. Somatostatin
 - 3. Thyrotropin inhibiting hormone
 - 4. Dopamine

Question Type: MCQ

Question ID: 810592209

Status: Answered

Chosen Option: 3

Q.11 The expanded ends of a long bone are called:

- Ans 1. Epiphyses
 2. Epicondyle
 3. Diaphysis
 4. Tubercle

Question Type: MCQ
Question ID: 810592201
Status: Answered
Chosen Option: 3

Q.12 Which of the following is an example of synarthrosis joint?

- Ans 1. Wrist joints
 2. Fibrous joints of the skull sutures
 3. Elbow joint
 4. Hip joints

Question Type: MCQ
Question ID: 810592204
Status: Answered
Chosen Option: 2

Q.13 Which of the following is an example of ball-and-socket joints?

- Ans 1. Thumb joint
 2. Elbow joint
 3. Skull joint
 4. Hip joint

Question Type: MCQ
Question ID: 810592216
Status: Answered
Chosen Option: 4

Q.14 What is the approximate maximum air volume in the lung for normal healthy adult?

- Ans 1. 6000 mL
 2. 3000 mL
 3. 2400 mL
 4. 300 mL

Question Type: MCQ
Question ID: 810592217
Status: Answered
Chosen Option: 1

Q.15 How many cervical nerves are there in the spinal cord?

- Ans
- 1. 8
 - 2. 5
 - 3. 12
 - 4. 9

Question Type: MCQ
Question ID: 810592207
Status: Answered
Chosen Option: 1

Q.16 Carpometacarpal joint is an example of which of the following types of joints?

- Ans
- 1. Hinge
 - 2. Saddle
 - 3. Ball and socket
 - 4. Pivot

Question Type: MCQ
Question ID: 810592214
Status: Answered
Chosen Option: 4

Q.17 Which of the following hormones is NOT secreted from the anterior pituitary?

- Ans
- 1. Human growth hormone
 - 2. Adrenocorticotropin
 - 3. Oxytocin
 - 4. Prolactin

Question Type: MCQ
Question ID: 810592208
Status: Answered
Chosen Option: 3

Q.18 The apex of the heart is formed mostly by the:

- Ans
- 1. right atrium
 - 2. left atrium
 - 3. left ventricle
 - 4. central ventricle

Question Type: MCQ
Question ID: 810592205
Status: Answered
Chosen Option: 3

Q.19 The elbow is an example of a _____ joint.

- Ans
- 1. pivot
 - 2. hinge
 - 3. condyloid
 - 4. planar

Question Type: MCQ
Question ID: 810592215
Status: Answered
Chosen Option: 2

Q.20 What is the synonym of Clotting Factor II?

- Ans
- 1. Christmas factor
 - 2. Prothrombin
 - 3. Calcium
 - 4. Fibrinogen

Question Type: MCQ
Question ID: 810592206
Status: Answered
Chosen Option: 4

Section : Microbiology

Q.1 Which of the following is true about IgM?

- Ans
- 1. It is the smallest antibody.
 - 2. It is not produced by vertebrates.
 - 3. It forms the initial immune response.
 - 4. It is not an isotypes of antibody.

Question Type: MCQ
Question ID: 810592227
Status: Answered
Chosen Option: 3

Q.2 Which of the following is NOT related to MMR vaccine?

- Ans
- 1. Measles
 - 2. Rickets
 - 3. Rubella
 - 4. Mumps

Question Type: MCQ
Question ID: 810592228
Status: Answered
Chosen Option: 2

Q.3 Widal, a serological test, is used to detect the presence of which of the following pathogenic microorganisms?

- Ans
- 1. Mycobacterium tuberculosis
 - 2. Salmonella typhi
 - 3. E. Coli
 - 4. Haemophilus influenza

Question Type: MCQ

Question ID: 810592224

Status: Answered

Chosen Option: 2

Q.4 The causative agent of Lyme disease is:

- Ans
- 1. Borrelia burgdorferi
 - 2. Trypanosoma brucei gambiense
 - 3. Rickettsia prowazekii
 - 4. Alphavirus

Question Type: MCQ

Question ID: 810592230

Status: Answered

Chosen Option: 1

Q.5 What is the optimum temperature in an autoclave to achieve sterility?

- Ans
- 1. 34 °C for 30 minutes
 - 2. 121 °C for 30 minutes
 - 3. 27 °C for 20 minutes
 - 4. 60 °C for 30 minutes

Question Type: MCQ

Question ID: 810592225

Status: Answered

Chosen Option: 2

Q.6 Rod-shaped bacteria are called:

- Ans
- 1. Cocci
 - 2. Bacillus
 - 3. Clusters
 - 4. Spirochetes

Question Type: MCQ

Question ID: 810592221

Status: Answered

Chosen Option: 1

Q.7 Which of the following involves the introduction of antibodies into the body from an animal or person already immune to the disease?

- Ans**
1. Naturally acquired passive immunity
 2. Artificially acquired passive immunity
 3. Active immunity
 4. Innate immunity

Question Type : MCQ
Question ID : 810592226
Status : Answered
Chosen Option : 3

Q.8 Who among the following devised the autoclave used for sterilisation?

- Ans**
1. Robert Koch
 2. Edward Jenner
 3. Anton van Leeuwenhoek
 4. Charles Chamberland

Question Type : MCQ
Question ID : 810592223
Status : Answered
Chosen Option : 1

Q.9 Which of the following microorganisms causes gonorrhoea?

- Ans**
1. *Neisseria gonorrhoeae*
 2. *Streptococcus pneumoniae*
 3. *Sterecyolist gonorrhoeae*
 4. *Stylus gonorrhoeae*

Question Type : MCQ
Question ID : 810592222
Status : Answered
Chosen Option : 1

Q.10 Type I hypersensitivity is mediated by:

- Ans**
1. IgA
 2. IgM
 3. IgE
 4. IgG

Question Type : MCQ
Question ID : 810592229
Status : Answered
Chosen Option : 3

Section : Sociology

Q.1 Who said that man is a social animal?

- Ans
1. Auguste Comte
 2. MacIver
 3. Gineberg
 4. Aristotle

Question Type: MCQ
Question ID: 810592234
Status: Answered
Chosen Option: 4

Q.2 Providing education to the school, college and street children on prevention of drug addiction is an example of _____ prevention.

- Ans
1. tertiary
 2. primary
 3. secondary
 4. primordial

Question Type: MCQ
Question ID: 810592238
Status: Answered
Chosen Option: 2

Q.3 Who is considered as the father of sociology?

- Ans
1. Emile Durkheim
 2. Kingsley Davis
 3. Auguste Comte
 4. MacIver

Question Type: MCQ
Question ID: 810592231
Status: Answered
Chosen Option: 3

Q.4 Socialisation is a process involving:

 4. interest

Question Type: MCQ
Question ID: 810592232
Status: Answered
Chosen Option: 3

Q.8 The general process of acquiring culture is referred to as:

- Ans**
1. Diffusion
 2. Socialisation
 3. Dispersion
 4. Acculturation

Question Type: MCQ
Question ID: 810592237
Status: Answered
Chosen Option: 3

Q.9 As per 2011 census survey, _____ per cent of the population of India suffer from disability (in the identified 8 categories).

- Ans**
1. 2.21
 2. 3.1
 3. 1.2
 4. 2.5

Question Type: MCQ

Question ID: 810592240

Status: Answered

Chosen Option: 1

Q.10 Which of the following is NOT a stage of socialisation?

- Ans**
1. Oral stage
 2. Despair stage
 3. Latency stage
 4. Oedipal stage

Question Type: MCQ

Question ID: 810592235

Status: Answered

Chosen Option: 2

Section : Nursing Foundations

Q.1 Inflammation of the oral mucosa is known as:

- Ans**
1. Glossitis
 2. Gingivitis
 3. Stomatitis
 4. Parotitis

Question Type: MCQ

Question ID: 810592277

Status: Answered

Chosen Option: 3

Q.2 Insertion of a tube inside the stomach through the nose is called nasogastric _____

- Ans**
1. Irrigation
 2. Urigation
 3. Intubation
 4. Extubation

Question Type: MCQ

Question ID: 810592253

Status: Answered

Chosen Option: 3

Q.3 A group of symptoms is known as:

- Ans
1. Signs
 2. Syndrome
 3. group symptoms
 4. clinical manifestations

Question Type: MCQ
Question ID: 810592259
Status: Answered
Chosen Option: 2

Q.4 Which of the following medication orders are for every other day?

- Ans
1. qod
 2. bid
 3. qd
 4. qh

Question Type: MCQ
Question ID: 810592262
Status: Answered
Chosen Option: 3

Q.5 Which of the following is NOT an example of dry cold application?

- Ans
1. Ice bag
 2. Cold compress
 3. Ice pack
 4. Ice cradle

Question Type: MCQ
Question ID: 810592258
Status: Answered
Chosen Option: 2

Q.6 In which of the following positions is the patient at greatest risk of shearing force?

- Ans
1. Lying supine in bed
 2. Trendelenburg position
 3. Semi-Fowler's position
 4. High-Fowler's position

Question Type: MCQ
Question ID: 810592247
Status: Not Answered
Chosen Option: --

Q.7 HbA1c (glycated haemoglobin) value reflects the blood glucose levels in the past _____ months.

- Ans
1. 9
 2. 7
 3. 3
 4. 1

Question Type: MCQ
Question ID: 810592280
Status: Answered
Chosen Option: 3

Q.8 Following death, the subjective response experienced by the surviving loved ones is called:

- Ans
1. grief
 2. mourning
 3. compliance

Question Type: MCQ
Question ID: 810592268
Status: Answered
Chosen Option: 2

Q.9 Which of the following electrolytes does insulin help to move into the cells?

- Ans
1. Carbonates
 2. Bicarbonates
 3. Potassium
 4. Chloride

Question Type: MCQ
Question ID: 810592275
Status: Answered
Chosen Option: 3

Q.10 Temperature of 98.7 degree Fahrenheit is approximately equal to _____ degree Celsius.

- Ans
1. 37.56
 2. 36.52
 3. 37.06
 4. 38.16

Question Type: MCQ
Question ID: 810592254
Status: Answered
Chosen Option: 3

Q.11 Kussmaul breathing is associated with:

- Ans**
1. Atelectasis
 2. Heart failure
 3. Diabetic ketoacidosis
 4. Bronchial asthma

Question Type: MCQ
Question ID: 810592252
Status: Answered
Chosen Option: 3

Q.12 Which of the following medication orders is administered immediately and only once?

- Ans**
1. PRN order
 2. Single order
 3. Standing order
 4. Stat order

Question Type: MCQ
Question ID: 810592243
Status: Answered
Chosen Option: 4

Q.13 The gradual decrease in body's temperature after death is called:

- Ans**
1. rigor mortis
 2. stiff mortis
 3. algor mortis
 4. livor mortis

Question Type: MCQ
Question ID: 810592272
Status: Answered
Chosen Option: 3

Q.14 In a healthy individual, weighing 70 kg at rest, the stroke volume is about:

- Ans**
1. 100 ml
 2. 50 ml
 3. 150 ml
 4. 70 ml

Question Type: MCQ
Question ID: 810592255
Status: Answered
Chosen Option: 4

Q.15 A patient is to receive 1000 mL of IV fluid in 6 hours. The drop factor is 15 drops per mL. At approximately how many drops per minute should the flow rate be set?

- Ans**
1. 42 drops/min
 2. 33 drops/min
 3. 55 drops/min
 4. 21 drops/min

Question Type: MCQ

Question ID: 810592245

Status: Answered

Chosen Option: 1

Q.16 Difference between systolic and diastolic blood pressure is called:

- Ans**
1. pulse pressure
 2. pulse range
 3. pulse length
 4. pulse deficit

Question Type: MCQ

Question ID: 810592242

Status: Answered

Chosen Option: 1

Q.17 Rhythmic waxing and waning of respiration is called:

- Ans**
1. Cheyne-Stokes respiration
 2. Hypoventilation
 3. Orthopnea
 4. Hyperventilation

Question Type: MCQ

Question ID: 810592267

Status: Answered

Chosen Option: 4

Q.18 Formula to calculate BMI is:

- Ans**
1. weight in kg divided by square of height in feet
 2. weight in kg divided by height in feet
 3. weight in kg divided by square of height in metres
 4. weight in kg divided by height in metres

Question Type: MCQ

Question ID: 810592251

Status: Answered

Chosen Option: 3

Q.19 The sudden fall of temperature from high to normal within a few hours is called:

- Ans**
1. Hypothermia
 2. True crisis
 3. Lysis
 4. False crisis

Question Type: MCQ
Question ID: 810592260
Status: Answered
Chosen Option: 3

Q.20 As per Kubler-Ross' stages of grieving, refusing to believe that loss is happening/has happened is called:

- Ans**
1. Denial
 2. Acceptance
 3. Bargaining
 4. Depression

Question Type: MCQ
Question ID: 810592269
Status: Answered
Chosen Option: 3

Q.21 The specific gravity of the urine normally ranges approximately from:

- Ans**
1. 1.8 to 2.0
 2. 0.75 to 1.00
 3. 1.01 to 1.025
 4. 1.5 to 1.8

Question Type: MCQ
Question ID: 810592276
Status: Answered
Chosen Option: 3

Q.22 What does the term Cheliosis mean?

- Ans**
1. Inflammation of the tongue
 2. Cracking of lips
 3. Bad breath
 4. Inflammation of the gums

Question Type: MCQ
Question ID: 810592263
Status: Answered
Chosen Option: 2

Q.23 The discolouration that appears in the dependent areas of the body after death is called:

- Ans**
1. livor mortis
 2. algor mortis
 3. stiff mortis
 4. rigor mortis

Question Type: MCQ

Question ID: 810592271

Status: Answered

Chosen Option: 1

Q.24 Under normal circumstances, concentration of oxygen in inspired air is about _____ per cent.

- Ans**
1. 21
 2. 29
 3. 100
 4. 6

Question Type: MCQ

Question ID: 810592246

Status: Answered

Chosen Option: 1

Q.25 _____ enema is also called antispasmodic enema.

- Ans**
1. Carminative
 2. Anthelmintic
 3. Oil
 4. Cold

Question Type: MCQ

Question ID: 810592256

Status: Answered

Chosen Option: 1

Q.26 Movement of the joints away from the mid-line of the body is called:

- Ans**
1. Abduction
 2. Adduction
 3. Adhesion
 4. Addiction

Question Type: MCQ

Question ID: 810592250

Status: Answered

Chosen Option: 1

Q.27 Stiffness in the body that occurs after 2 to 4 hrs after death is called:

- Ans
1. stiff mortis
 2. rigor mortis
 3. algor mortis
 4. livor mortis

Question Type: MCQ
Question ID: 810592270
Status: Answered
Chosen Option: 2

Q.28 What is the approximate normal level of haematocrit/packed cell volume in men?

- Ans
1. 5 % to 15 %
 2. 40 % to 50 %
 3. 20 % to 35 %
 4. 60 % to 70 %

Question Type: MCQ
Question ID: 810592264
Status: Answered
Chosen Option: 2

Q.29 Absorptive dressings are intended to:

- Ans
1. absorb nutrients for the wound
 2. remove drainage from the bed sore
 3. absorb blood from veins
 4. gather moisture from the atmosphere to keep the wound cool

Question Type: MCQ
Question ID: 810592265
Status: Answered
Chosen Option: 2

Q.30 Breathing that is normal in rate and depth is called:

- Ans
1. bradypnoea
 2. eupnoea
 3. tachypnoea
 4. apnoea

Question Type: MCQ
Question ID: 810592266
Status: Answered
Chosen Option: 2

Q.31 _____ is the process of introducing a disinfectant solution to the internal environment of the body when someone passes away.

- Ans
1. Rinsing
 2. Embacterium
 3. Embalming
 4. Revaccination

Question Type: MCQ

Status: Not Answered
Chosen Option: --

Q.32 The site of pulse in the neck is called:

- Ans
1. Radial
 2. Carotid
 3. Temporal
 4. Popliteal

Question Type: MCQ
Question ID: 810592249
Status: Answered
Chosen Option: 2

Q.33 The fever in which temperature remains above normal throughout the day and fluctuate more than 2 degree Fahrenheit is known as _____ fever.

- Ans
1. remittent
 2. inverted
 3. lysis
 4. intermittent

Question Type: MCQ
Question ID: 810592241
Status: Answered
Chosen Option: 4

Q.34 Which of the following equipment is used for the examination of the ear?

- Ans
1. Proctoscope
 2. Otoscope
 3. Laryngoscope
 4. Ophthalmoscope

Question Type: MCQ
Question ID: 810592278
Status: Answered
Chosen Option: 2

Q.35 The main intracellular cation is:

- Ans
1. Zinc
 2. Chloride
 3. Potassium
 4. Halide

Question Type: MCQ
Question ID: 810592257
Status: Answered
Chosen Option: 3

Q.36 Which of the following organs is one of the primary regulator of body fluid and electrolyte balance?

- Ans
1. Stomach
 2. Intestine
 3. Lungs
 4. Kidney

Question Type: MCQ
Question ID: 810592274
Status: Answered
Chosen Option: 4

Q.37 A bedridden patient is having intact skin at the sacral region, and the symptoms of warmth, pain and firm skin at the site. What is the stage of bed sore?

- Ans
1. Stage IV
 2. Stage III
 3. Stage I
 4. Stage II

Question Type: MCQ
Question ID: 810592248
Status: Answered
Chosen Option: 3

Q.38 Intravenous solution of 0.45% sodium chloride is a/an _____ solution.

- Ans
1. isotonic
 2. hypotonic
 3. colloid
 4. hypertonic

Question Type: MCQ
Question ID: 810592244
Status: Answered
Chosen Option: 2

Q.39 Lack of oxygen in the blood stream is called:

- Ans**
1. Cyanosis
 2. Hypoxaemia
 3. Hypoxia
 4. Anoxaemia

Question Type: MCQ
Question ID: 810592261
Status: Answered
Chosen Option: 2

Q.40 Which of the following tests need to be performed before radial artery cannulation to evaluate radial and ulnar arterial patency?

- Ans**
1. Allen's test
 2. Capillary refill test
 3. Coop's test
 4. Buergeor's test

Question Type: MCQ
Question ID: 810592279
Status: Answered
Chosen Option: 1

Section : Community Health Nursing-I

Q.1 What is the minimum contact time required for the chlorination of water to take place?

- Ans**
1. 30 minutes
 2. 60 minutes
 3. 10 minutes
 4. 90 minutes
